Duo

The Duo range is extremely versatile. Its low, sleek appearance is deceptive as its unique soft opening / easy close door encloses a generous AV unit space. Units can be placed side by side or even stacked. The door gently opens all by itself once the catch is pushed. Then it is simply closed with one finger. Above the cabinet is an open space ideal for a speaker bar, additional units or simply for magazines. Above that the TV floats impressively on the glass shelf. All this flexibility in a compact corner friendly design.
